

BOA VIDA FAMILY OF COMPANIES

Boa Vida Healthcare focuses on the well-being and revitalization of communities by providing quality Healthcare through Management Services, including overall Practice Management. Boa Vida aims to elevate and assist in creating vibrant and efficient Healthcare services in communities throughout rural and urban America.

Boa Vida Healthcare provides leadership strategically, financially and operationally.

Our team of physicians, clinicians, senior executives and departmental managers support transformational services, improving operational and clinical performance. Our Family of Companies partners offer a wide range of mission-critical services, business consulting and advisory services for organizations across the healthcare industry spectrum.

Physician-founded and physician-led, Boa Vida Healthcare is a national healthcare company that supports and advises healthcare facilities in helping them reach their maximum potential for operational and financial outcomes. Health organizations can bundle Boa Vida's range of assistance within our services portfolio to provide as much or as little support as needed by your healthcare organization. The Boa Vida Family of Companies is comprised of an interrelated group of companies offering a holistic approach to Healthcare solutions. This approach strengthens your operations and helps gain efficiencies in mission-critical functions.

- Practice Management
- Revenue Cycle Management
- Chronic Care Management
- Human Resource Services
- Managed IT Services

Boa Vida attributes our accomplishments to the core values that have helped us create a systematic and sustainable model of success in the Healthcare market. Boa Vida is honored to be a trusted Healthcare partner who gives back to the communities we serve!

TRUSTED HEALTHCARE ADVISORS PROVIDE PARTNER-LEVEL ATTENTION

Boa Vida Healthcare's mission is to transform and improve hospitals and clinics with a passion for delivering high-quality, compassionate, patient-centered healthcare and wellness to patients and families while revitalizing communities. We take our time to ensure that we create quality care and coordinate synergy in the rural communities we serve.

We are a national healthcare company that currently owns and/or manages Healthcare systems, including hospitals and clinics in six states. Our healthcare model, designed and implemented, improves and expands a community's Healthcare services at each facility. We support and advise healthcare facilities in helping them reach their maximum potential for operational and financial outcomes.
